On the basis of the above mentioned program the seminar was developed with some little modification:

- ⇒ During the opening session the Mayor of Giulianova, Mr Claudio Ruffini said welcome to the attendances
- ⇒ Rocco Salini, doctor expert on disability and Senator of the Italian Republic expressed his appreciation towards the project
- ⇒ The conclusions have been done by Prof. Ezio Sciarra, Chairman of the Faculty of Sociology of the University "Gabriele D'Annunzio", because the representant of the Regional Authority preferred this.

In total the attendances were n°82 (on the sheets of register n°4 signature are double).

Our weakness was the translation. For the future, on the basis of this first experience, we suggest to the host DPs to organise a simultaneous translation during their seminars in order to save time and to let to the foreign delegations to follow all the speakers.
